

Status Report to June 2011

ENVIRONMENT AND NATURAL RESOURCES  
FRAMEWORK FOR ACTION 2008-2012

## Minister's Message

I am pleased to provide a status report on the Department of Environment and Natural Resources' (ENR) Framework for Action 2008-2012. The status report highlights the Department's activities on actions undertaken from January 2011 to June 2011. During the past six months progress on several major action items has been made.

Environmentally and sustainable decision-making is based on the best available scientific, traditional and local knowledge. To ensure the best information is available, identification of long term research needs and priorities has now been integrated into the ENR business planning process. A draft five-year wildlife research and monitoring plan has been developed with, and reviewed by, wildlife co-management boards.

The Department is also continuing its research into protocols for general traditional knowledge information access and sharing. Funding was provided to the Tulita Dene Band to complete a video project of interviews with elders about traditional knowledge on the land and to the Sambaa K'e Dene Band for a research project involving youth and elders to ensure traditional knowledge is based on. The Yamozhaa Kue Society assisted in the development of a workshop to inform ENR scientists on the methods used to carry out traditional knowledge research.

A comprehensive review of actions taken under the current Greenhouse Gas Strategy was completed as part of the process to renew the Strategy for the period beyond 2011. Consultation and public information sessions were held on the draft five-year NWT Greenhouse Gas Strategy. The 2011-2015 Strategy should be released in August, 2011.

ENR continues to deliver several programs to help NWT residents, businesses, organizations and communities reduce their energy costs and greenhouse gas emissions. The new Commercial Energy Conservation and Efficiency Program, launched in May 2011 provides free energy audits and a 25 percent rebate of retrofit costs, up to a maximum of \$10,000, to NWT businesses. Uptake on the current Alternative Energy Technologies, Energy Conservation and Energy Efficiency Incentive Programs remains strong.

A Pan-Territorial Adaptation Strategy, released in April 2011, outlines the impact of climate change in the three territories. The Strategy also proposes strategies for collaborative actions and supports territory specific initiatives to meet each territory's unique challenges in dealing with climate change impacts.

The Single-use Retail Bag Program was successfully expanded to apply to all retailers on February 1, 2011. This program, along with our other waste reduction and recovery programs, is helping keeping our communities litter free and increasing the life-span of community landfills.

After more than a decade of discussion and consultation, a proposed new Wildlife Act for the Northwest Territories was introduced into the Legislative Assembly in March, 2011. The proposed legislation received second reading and Members of the Legislative Assembly will discuss and vote on the proposed new Act in August, 2011.

Wildlife management remains an important issue for most NWT residents. A draft new Five-Year NWT Barren-ground Caribou Management Strategy (2001-2015) was released for public review in February, 2011. The final Strategy, to be released in August, 2011, builds upon the successful 2006-2010 Strategy. The Dehcho Boreal Caribou Working Group was established in February, 2011 to develop a management plan and range management plan for boreal caribou.

Based on results of a review of ENR's strategic approach to wildland fire management, changes to internal procedures and decision processes were implemented in some areas for the 2011 fire season. Field work and community discussions on FireSmart interface fire management plans for Hay River, Hay River Reserve, Fort Resolution, Fort Simpson, Trout Lake, Wrigley, Fort Liard, Nahanni Butte and Tulita were completed.

The NWT Water Stewardship Action Plan was released in May, 2011. The Action Plan lays out a partnership approach to improve and enhance water stewardship in the NWT. The Slave River Partnership community workshop in Fort Smith and Fort Resolution was held this spring to engage water stewardship partners and communities in community-based monitoring.

I encourage all NWT residents to continue their involvement in the protection of the NWT environment and the conservation of our valuable natural resources

J. Michael Miltenberger

1.1 Consultation Framework for ENR	1.1.1 Develop a consultation framework for ENR based on the GNWT's Approach to Consultation with Aboriginal Governments and Organizations	ENR Consultation Framework	June 2009	September 2011	An ENR Consultation and Engagement Document Template and User Guide was created. A guideline document is being developed and scheduled for completion by early fall 2011. A workshop was held in early June to review the Draft Document. Two additional workshops will be held over the summer to create templates for consultation on Wildlife and Forestry permits.
1.2 Land Use Decision Support Tools	1.2.1 Implementation of Technology Infrastructure to support land information management and information sharing	Core services and prototype	March 2011		✓ <b>Completed</b> Infrastructure has been successfully implemented.
	1.2.2 Develop data information inventory methodologies and tools	Data/information classification guidelines	December 2011		Work is underway developing recommended approaches and techniques to help GNWT departments identify, classify and catalog spatial data and information.
	1.2.3 Identify priority areas for collaboration between government agencies for the sharing and acquisition of new data and information	GNWT Land Information Acquisition Report	March 2012		Developing the project framework for this initiative that will ensure a high degree of collaboration across the GNWT,

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

1.3 NWT Protected Areas Strategy (PAS)	<i>1.3.1 Develop a preliminary map of important wildlife areas in the NWT.</i>	Preliminary map of important wildlife areas in the NWT	December 2009	July 2011	A report for the western NWT has been drafted and will be released with maps in 2011.
	<i>1.3.2 Prepare a Five-Year PAS Action Plan for 2010-2015.</i>	Five-Year PAS Action Plan: 2010-2015	March 2010		<p>✓ <b>Completed</b></p> <p>The GNWT has signed off on the Establishment Action Plan: 2010-2015. Final document is now available on the PAS website. <a href="http://www.nwtpas.ca/">http://www.nwtpas.ca/</a></p>
	<i>1.3.3 Work with Nunavut to implement the Thelon Management Plan.</i>	Implementation plan and status report	March 2010	To be determined	This project has been postponed due to lack of resources.
	<i>1.3.4 Use ENR legislation, such as Critical Wildlife Areas, to sponsor candidate sites.</i>	Candidate site(s) process underway using ENR legislation	December 2011		<p>In March 2010, ENR announced it will sponsor Buffalo Lake and Trails as a Critical Wildlife Area. A working group was established and a draft Management Recommendation Report has been prepared.</p> <p>ENR conducted a GNWT internal review of the proposed Yambahti Critical Wildlife Area and determined the GNWT should not sponsor the proposal as submitted.</p>

1.4 Managing Landscape Change	<i>1.4.1 In partnership with industry and Aboriginal organizations and boards, identify management actions to reduce and mitigate impacts on boreal caribou and their habitat from resource development.</i>	Action plan and status report	December 2009		✓ <b>Completed</b> The Action Plan for Boreal Woodland Caribou Conservation in the NWT 2010-15 was released in September 2010.
	<i>1.4.2 Report on the Environmental Stewardship Framework (ESF) and Cumulative Impact Monitoring Program (CIMP), progress.</i>	Progress report	December 2009 and then annually		The Final 2010 NWT Environmental Audit Report will be released in July 2011.
1.5 NWT Science Agenda	<i>1.5.1 Identify ENR research needs and research priorities.</i>	Annual action plan and status report	June 2009 and then annually	Annually	Identification of long term research needs and priorities has been integrated into the ENR business planning process.  A draft 5 year wildlife research and monitoring plan has been reviewed by wildlife co-management boards.  The 13 <sup>th</sup> International Arctic Ungulate Conference will be held in Yellowknife in August 2011. The conference is co-hosted by GNWT, the Government of Nunavut, and the Yukon Government.
	<i>1.5.2 Work with other GNWT Departments to prepare a GNWT Science Agenda.</i>	GNWT Science Agenda	September 2009		✓ <b>Completed</b> Building a Path for Northern Science: GNWT Science Agenda was tabled in the Legislative Assembly in November 2009.

	<i>2.1.2 Support actions identified in the NWT Greenhouse Gas Strategy and report progress annually.</i>	Progress report	April 2009 and then annually	Annually	A review of actions was conducted as part of the process to renew the Strategy for the period beyond 2011. A new suite of actions will be identified in the NWT Greenhouse Gas Strategy 2011-2015.
	<i>2.1.3 Support NWT residents, businesses and communities to reduce energy consumption and implement alternative energy solutions.</i>	Support programs - Alternative Energy Technologies Program (AETP); Energy Conservation Program; and Energy Efficiency Incentive Program	April 2009 and then annually	Annually	ENR has four programs designed to reduce energy use and promote alternative energy. ENR continues to deliver the AETP, the Energy Conservation Program and the Energy Efficiency Incentive Program that result in significant annual savings to NWT residents, businesses and communities and annual reductions of CO <sub>2</sub> emissions. The Commercial Energy Conservation and Efficiency Program (CECEP) was launched in May 2011 to provide free energy audits and a 25 percent (%) rebate of retrofit costs, up to a maximum of \$10,000, to NWT businesses.

3.4 Environmental Assessment Tracking System (EATS)	<i>3.4.1 Design, build and implement the EATS system to better manage the GNWT's environmental assessment processes and associated information management library.</i>	Environmental Assessment Tracking System operational	June 2009		✓ <b>Completed</b> EATS was formally implemented in April 2009. Tracking of obligations from past Reports of Environmental Assessment is now underway. An enhanced version of EATS was released June 2011.
3.5 Compliance Database	<i>3.5.1 Design, build and implement the Compliance Management Information System (CMIS). CMIS will enhance the ability for the Department to effectively carry out the compliance duties of its Officers through enhanced case management and intelligence collection functions.</i>	Compliance Management Information System Operational	June 2010	March 2012	A vendor has been selected and contracts are being finalized.
3.6 Reporting on the Northwest Territories "State of the Environment"	<i>3.6.1 Develop a 'State of the Environment' report on the NWT environment, focusing on its air, wildlife and forests.</i>	NWT State of the Environment Report	June 2009		✓ <b>Completed</b> The NWT State of the Environment Report has been completed and the Highlights Report published. Work on a 2011 Highlights Report is underway. The report is scheduled to be released in late fall 2011. The annual update of the web-based state of the environment report is underway and scheduled to be completed by July 2011.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

	<i>3.6.2. Develop a special report on State of Biodiversity to celebrate International Year of Biodiversity 2010</i>	NWT State of Biodiversity Report	March 2010	May 2010	✓ <b>Completed</b> The NWT State of the Environment 2010 Biodiversity Special Edition was tabled on May 19, 2010.
3.7 Traditional Knowledge (TK) Policy Implementation	<i>3.7.1 Work with Aboriginal governments and partners, including communities and regional resource management agencies, to support the implementation of the ENR TK Implementation Framework.</i>	Implementation plan and status report	March 2009		✓ <b>Completed</b> The ENR TK implementation plan has been completed. The TK 2010-11 Annual Report was tabled in the Legislature on May 18, 2011.
	<i>3.7.2 Develop and implement protocols with regional Aboriginal governments and agencies to access and share TK.</i>	Protocols for information access and sharing	June 2012		Research continues into protocols for general TK information access and sharing.
	<i>3.7.3 Work with the GNWT Interdepartmental TK Working Group to develop a plan for government-wide implementation of TK Policy</i>	GNWT TK Implementation Framework	September 2012	March 2009	✓ <b>Completed</b> The GNWT TK Framework was completed in March 2009. Work will continue on developing individual department plans, as required.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

**FRAMEWORK FOR ACTION 2008–2012 ▪ Status Report: June 2011**

Initiative	Action	Deliverable	Timeline		Status
			Original	Revised	
	<i>3.7.4 Implement the TK Policy Implementation plan for ENR</i>	Workshops for all employees. Best Practices Guide distributed  Grant and Contributions agreement in place to carry out TK research	March 2010  March 2011	March 2011	✓ <b>Completed</b>  Through grants and contribution agreements ENR provided funding to the following communities and research organizations: Tulita Dene Band completed a video project – interviewing elders on TK about the land; Sambaa K’e Dene Band began a research project involving youth and elders to improve intergenerational communications to ensure that TK is passed on; Yamooshaa Kue Society (formerly Dene Cultural Institute) assisted in the development of a workshop to inform ENR scientists on the methods used to carry out TK research.
3.8 LISIN Licensing and Permitting Application	<i>3.8.1<sup>NEW</sup> Enhancements to the Licensing Information System (LISIN) to include additional wildlife licenses and incorporate forestry licensing and permits</i>	LISIN Application operational with enhanced functionality	August 2012		LISIN development is complete. Regional training plans are being prepared. System will be implemented after training is complete.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

4. Environmental Stewardship

Initiative	Action	Deliverable	Timelines		Status
			Original	Revised	
4.1 Past Environmental Legacies	<i>4.1.1 Work with the federal government to develop and implement a comprehensive plan for managing contaminated soil along the Northern Transportation Route (NTR).</i>	NTR contaminated soil management plan	December 2009	Ongoing until remediation of the entire route is complete.	All of the known uranium ore impacted materials in Fort Smith associated with the NTR have been addressed. ENR continues to press Natural Resources Canada for a further assessment of the Bennett Field site given use of the area by Tulita residents.
	<i>4.1.2 Report progress on implementation of the approved closure and reclamation plan by Miramar Northern Mining Ltd. (MNML) (formerly Miramar Con Mine Ltd).</i>	Progress report(s)	Ongoing until remediation of site is complete and continued site monitoring		Reclamation of the mine site continues. Miramar provides ENR with regular updates on cleanup activities, future activities, and timelines. Remediation work is scheduled to be completed by the end of 2012.
	<i>4.1.3 Support the Mackenzie Valley Environmental Impact Review Board (MVEIRB) processes to complete the Environmental Assessment for Giant Mine’s remediation in partnership with the Giant Mine Remediation team.</i>	N/A	December 2009	December 2011	ENR continues to work with the Giant Mine Remediation Office to complete the environmental assessment (EA) process. The Developers Assessment Report has been submitted and accepted by the Board and the first round of Information Requests has been completed.

	<i>4.1.4 Address recommendations resulting from the review of the Giant Mine Remediation Plan and begin remediation of the Giant Mine site.</i>	N/A	September 2010 (begin remediation)	September 2012 (begin remediation)	Upon completion of the EA process, ENR will work with the Giant Mine Remediation Office to implement the approved remediation plan.
4.2 Waste Recovery Programs	<i>4.2.1 Introduce a Paper Products Diversion Initiative to provide financial support for NWT businesses, municipalities and environmental groups to investigate and/or pilot creative solutions for diverting paper products from community landfills.</i>	Paper Products Diversion Initiative status report	June 2009		✓ <b>Completed</b> A Paper Products Diversion Initiative has been initiated and will run for three years. ENR will report on the initiative annually.
	<i>4.2.2 Implement actions to reduce the use of single-use retail plastic and paper bags including introduction of a fee on single-use retail bags.</i>	Environmental fee for single-use retail bags introduced	September 2009	January 2010	✓ <b>Completed</b> The Single-use Retail Bag (SRB) Regulations came into force on January 15, 2010 and were expanded to apply to all retailers on February 1, 2011. The Regulations apply a 25 cent environmental fee to SRBs used in NWT grocery stores.
	<i>4.2.3 Add milk containers to the Beverage Container Program.</i>	Updated Beverage Container Program Regulations	June 2009	February 2010	✓ <b>Completed</b> The addition of milk and milk substitutes to the Beverage Container Program came into effect on February 15, 2010.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

**FRAMEWORK FOR ACTION 2008–2012 ▪ Status Report: June 2011**

			Original	Revised	
	<i>4.2.4 Determine the appropriate approach to, and the setting up of a comprehensive electronics waste recovery program in the NWT.</i>	Discussion Paper	September 2010	September 2011	ENR will investigate e-waste approaches in other jurisdictions and the potential costs of implementing similar programs in the NWT. Detailed studies of the financial viability of the most promising approaches will be conducted as funding permits.
4.3 Best Management Practices, Standards and Guidelines	<i>4.3.1 In collaboration with Environment Canada and Indian and Northern Affairs Canada, develop NWT-wide Guidelines for Seismic Operations, to address the ecological impacts of seismic operations in a proactive manner.</i>	Guidelines for Seismic Operations in the NWT	March 2009	August 2011	ENR, Environment Canada (EC), INAC and Fisheries and Oceans will release the final guidance document as part of the Northern Land Use Series in August 2011.
	<i>4.3.2 Develop 'air quality best management practices' for the oil and gas industry, including exploration, preliminary processing and transport.</i>	Air Quality Best Management Practices	December 2009		ENR will work with EC and the National Energy Board on the development of effective base level industrial emissions requirements for oil and gas operations in northern airsheds. This work will proceed under the comprehensive air management strategy developed under the Canadian Council of Ministers of the Environment.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

**FRAMEWORK FOR ACTION 2008–2012 ▪ Status Report: June 2011**

Initiative	Action	Deliverable	Timelines		Status
			Original	Revised	
	<i>4.3.3 Identify additional 'best management practice' guidance documents for minerals, oil and gas development, and other industrial activities to reduce and mitigate environmental impacts, especially on forests, wildlife and habitat.</i>	Review of Guidance documents and list of guidance documents to develop or update	Summer 2010 and annually	Annually	✓ <b>Completed</b> ENR has reviewed existing ENR and federal regulators' guidance/regulatory documents to identify duplication and gaps. Work is underway on guidance for the management of domestic wastes in NWT based industrial camps. Input is provided annually on guidance documents prepared by the federal government and regulatory boards.
4.4 Managing Shared Wildlife Populations	<i>4.4.1 Conduct an independent peer review of barren-ground caribou survey methods and outcomes.</i>	Independent peer review	March 2009		✓ <b>Completed</b> The independent peer review has been completed. Barren-Ground Caribou Management in the NWT: An Independent Peer Review was tabled in the Legislative Assembly in March 2009.
	<i>4.4.2 Develop a Five-Year NWT Barren-ground Caribou Management Strategy 2011-2015.</i>	NWT Barren-ground Caribou Management Strategy 2011-2015	June 2010	August 2011	ENR released the draft strategy for public review in February 2011. The final strategy will be released in August 2011.
	<i>4.4.3 Develop agreements with the Governments of Alberta, British Columbia, Saskatchewan, Yukon and Nunavut on the management of shared wildlife populations, including polar bears, barren-ground caribou and boreal caribou.</i>	Bilateral agreements on shared wildlife populations for each jurisdiction	December 2010	December 2011	An agreement on shared boreal caribou populations has been completed with Alberta. A draft Nunavut/NWT polar bear management agreement has been completed. A format for barren-ground caribou management agreement has been agreed to by Yukon and Nunavut.

4.5 Species at Risk	<i>4.5.1 Develop a NWT Bison Management Strategy.</i>	NWT Bison Management Strategy	December 2008	December 2010	✓ <b>Completed</b> An NWT Bison Management Strategy has been completed.
	<i>4.5.2 Develop a NWT Action Plan for Boreal Caribou.</i>	NWT Action Plan for Boreal Caribou	June 2009		✓ <b>Completed</b> ENR Implementation Plan has been developed. Environment Canada helped to monitor Boreal Caribou in the Deh Cho and South Slave in 2010/11. The Dehcho Boreal Caribou Working Group (WG) was established in February 2011. The WG will develop a management plan and range management plan for boreal caribou by early 2013.
	<i>4.5.3 Develop Wood Bison Management Plans for the Liard, Mackenzie and Slave River Lowland Populations.</i>	Management Plans for each population	December 2010	December 2012	Initial meetings to establish joint planning committees were held in communities in the spring of 2011. Joint committees for all bison populations are to be established by fall 2011. Management plans are set to be complete by December 2012.
	<i>4.5.4 Update the General Status Ranks of Wild Species in the NWT 2011-2015.</i>	Status report	June 2011		✓ <b>Completed.</b> NWT Species 2011 – 2015 was published in March 2011.

\* Spring (March 20 – June 20)      Summer (June 21 – September 22)      Fall (September 23- December 21)      Winter (December 22 – March 19)

4.6 Environmental Legislation					
4.6.1 <i>Species at Risk Legislation</i>	4.6.1.1 <i>Introduce the NWT Species at Risk Act.</i>	Species at Risk Act introduced in Legislative Assembly	December 2008		✓ <b>Completed</b> The new Species at Risk (NWT) Act came into effect in February 2010.
	4.6.1.2 <i>Implement actions under the NWT Species at Risk Act.</i>	Conference of Management Authorities (CMA) and Species at Risk Committee (SARC) Annual reports	June 2010 and then annually	Annually: July (SARC) and September (CMA)	✓ <b>Completed</b> A new website for NWT species at risk has been developed: <a href="http://www.nwt-speciesatrisk.ca">www.nwt-speciesatrisk.ca</a> The CMA approved a five-year schedule of species to be assessed and will update the schedule yearly. The SARC is preparing status reports for the first four species to be assessed (in 2012): polar bear, Peary caribou, boreal woodland caribou, and hairy rockcress (a plant). The NWT Species at Risk Stewardship Program, now in its second year, provides funds for projects that support the long-term protection and recovery of species that are at risk or of concern in the NWT. 2009-2010 annual reports were tabled in fall 2010. 2010-2011 annual reports are being prepared.

4.6.3 Forest Management Legislation	4.6.3.1 Identify framework components and major steps for development of new forest and fire management legislation and policy.	Forest Management Legislative and Policy Framework	December 2008		✓ <b>Completed</b> ENR has received the final report on major steps towards legislative and policy framework for the NWT, prepared under contract by KBM Consulting.
	4.6.3.2 Develop draft action plan for new forest and wildland fire management legislation and policy.	Forest Management Legislative and Policy Action Plan	June 2009	March 2012	Background research and issues scoping on forest policy and legislation was completed in May 2010. Next steps are to develop a draft action plan and schedule to completion, with dates to be determined. The Draft action plan and schedule will be completed by March 2012.
	4.6.3.3 Develop and implement regulations that require issuance of an Incidental Timber Harvesting Permit when cutting trees related to an industrial development activity.	Incidental Timber Harvesting Regulations	December 2009	March 2012	Background research on the issues and solutions for the creation of an Incidental Forest Use Authorization and implementation under the current land management jurisdictions in the NWT was completed. ENR is meeting with AAND – Canada on the shared implications of the revised <i>Regulations</i> and the application of the <i>Forest Resources Transfer Agreement</i> . Consultation on the draft regulations will commence in the new Assembly. ENR intends to bring forward the draft change to the <i>Forest Management Regulations</i> for implementation by March 31, 2012.
