Aurora College Enrollment and Achievement Data

My question is for the Minister of Education, Culture and Employment:

Can the Minister provide information on the total yearly GNWT spending for Aurora College for the past three years, and:

1. How many full-time and part-time students were registered at Aurora College at the beginning and at the end of each of the past three enrollment years?
2. How many full-time students completed their full course load for each of the last three years?
3. What is the successful completion rate of individual courses for full-time and part-time students for the past three years?
