### **Maintenance Contracts on Highway 1**

My question is to the Minister of Transportation.

Please provide the following information:

1. What is the annual maintenance budget for each section of Highway 1, including the ice crossing?
2. What is the total amount spent on maintenance on Highway 1 since 2010-2011?
3. Which companies have been awarded maintenance contracts on Highway 1 since 2010-2011 and what was the rationale for selecting them?
4. How does the Department review contractors' and in-house maintenance work on Highway 1?
5. How does the Department monitor and consider the impact of weather conditions on maintenance work it performs on Highway 1?
