

-2-

The Yellowknife Airport is starting to receive recognition as one of the best locations for cold weather testing. The airport will continue to support northern businesses and economy through its support of Cold Weather Testing and hopes to attract other parties that are interested in taking advantage of YZF's cold weather, infrastructure, operations, and business partners.

Thank you.

Diane Archie  
Minister, Infrastructure

- c. Clerk of the Legislative Assembly  
Legislative Coordinator, Executive and Indigenous Affairs
