JANE WEYALLON-ARMSTRONG  
MLA, MONFWI**Oral Question 997-19(2): Correctional Facilities**

This letter is in follow-up to the Oral Questions you raised on March 7, 2022 in which you requested statistical information on inmates and people on probation for the past five years, including the number of Indigenous inmates and a break-down based on age, and gender. You also requested information on how the Therapeutic Community at the South Mackenzie Correctional Centre (“SMCC”) will be evaluated.

I am pleased to provide you with the requested statistics, which are **attached** to this letter. With regard to how the SMCC will be evaluated, I can advise that a monitoring and evaluation framework has been developed for the Therapeutic Community at the SMCC in partnership with the Department of Finance. The framework has been designed to help monitor and track the effectiveness of the SMCC therapeutic community initiative to affect gradual meaningful change for offenders and their communities. As identified in the 2020-2024 Business Plan, the therapeutic model will be evaluated and recommendations to adjust the program will be provided by 2025. The Department does not have any current plans to expand the model; however, following the results of the evaluation the Department may revisit this item.

I would also like to provide additional information in response to your Oral Question, in which you asked about trauma informed supports available to people on probation. Individuals under Community Supervision orders who require trauma informed supports are referred to a variety of services. These services are dependent on the community in which they reside and the services available in those communities. Probation Officers also participate in trauma informed care training. These services include:

- Referrals to Mental Health Services;
- Same day counseling;
- Placement in mental health facilities; and
- Community Wellness Workers, Mental Health Workers and Resolution Support Workers in some communities.
