Oral Question 904-19(2) Emerging Stronger and Economic Recovery

This letter is in follow-up to the Oral Question you raised on February 22, 2022 regarding the status of the Emerging Stronger document as part of the post-pandemic recovery initiative. During our exchange, I committed to providing the house with a revised document for tabling in Spring 2022.

As committed in our exchange and as previously stated in the house, a revised Emerging Stronger document will be tabled this Spring. This revised document will incorporate feedback and responses from key stakeholders on the commitment and action that the GNWT will take to support social and economic recovery from the pandemic. We commit to continue working in strong partnership and collaboration with Indigenous governments, communities, and other stakeholders to implement actions that will support the Northwest Territories' social and economic recovery. We will continue to welcome comments and feedback on an ongoing basis to inform our actions.

Thank you.
